

HEALING A SINGLE ISSUE IN ONE SESSION

Note: For most clients who are new to this type of healing and who have perhaps previously spent quite a bit of their resources (money) on therapies that have only provided support but not true clearing and healing, the experiences of the tools of my "New Regression Therapy" and Spirit Releasement Therapy are stunning and profound and incredibly effective. Most new clients who have spent thousands of dollars in other therapies (such a cognitive or talk therapies) report after one or two sessions working with me that it has been more effective than all those years of previous therapy. One or two sessions is usually all that is needed to address the cause and clear the cause of singular undesirable or dysfunctional pattern in this life.

So the value of this work is incomparable.
